AIR FORCE SCHOOL YELAHANKA **AI for Entrepreneurship and start learning!**

Circular: AI for Entrepreneurship from Class VIII to XII

As we continue to witness the rapid integration of Artificial Intelligence (AI) into various sectors, the intersection of AI and entrepreneurship is reshaping the landscape of innovation and business. To ensure that students from Classes VIII to XII are equipped with the essential skills to thrive in this evolving environment, we need to encourage and provide them with the opportunity and platforms to develop *knowledge and the required skill set*. In the age of startups, students need entrepreneurial skills to imagine and create ideas.

AI for Entrepreneurship is a short online course that provides them with the skills and knowledge of how AI can enhance their capabilities of thinking and creating new business ideas.

For easy access, the module is hosted on the Skill India Digital Hub (SIDH) platform, providing every budding innovator and entrepreneur an opportunity to gain insights into emerging technologies and the entrepreneurial mindset. The module is packed with several engaging and interactive elements, along with accessibility-enhancing features, making it an interesting and informative resource for all.

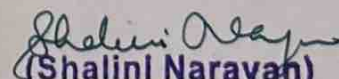

Post-completion of the course, learners will be awarded a shareable joint certification from the Ministry of Skill Development and Entrepreneurship (MSDE), National Skill Development Corporation (NSDC), Skill India, and Intel. This certification will add immense value to your professional credentials.

To begin the course, please follow this <https://www.skillindiadigital.gov.in/courses>.

The detailed steps to log in are provided in the attached document.

Once you complete the course, kindly upload your Certificate of Participation using the Google Form linked below. This certificate will reflect your successful completion and help enhance your academic and professional portfolio.
